

## Smarter CCTV, managed for you.

SEiNG is a true-Cloud VSaaS that works with your choice of CCTV camera, allowing you to **access footage anywhere**, harness **AI analytics**, and simplify CCTV management **across your sites**.

### Why choose SEiNG?

#### **Use the cameras you want**

Works with any ONVIF or RTSP camera – no vendor lock-in.

#### **Managed service**

Save IT time – we set up, train, monitor, and troubleshoot for you.

#### **Control across sites**

Monitor and collaborate from one platform, anytime, anywhere.

#### **Secure by design**

Protect your business with robust access controls and cybersecurity.

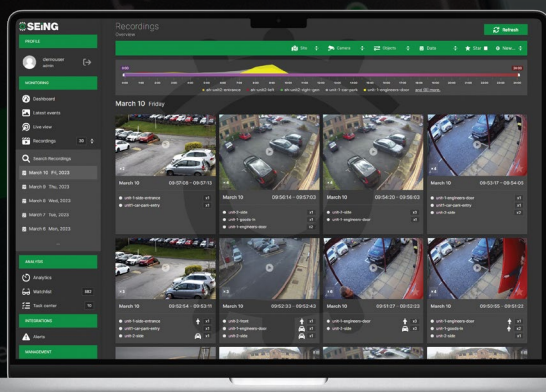

#### **UK Cloud storage**

Keep footage safe with local GDPR compliant storage.

#### **No upfront costs**

Enterprise CCTV from £5/month, ready in 1 day.

*“Being able to check all our sites from one platform is a game-changer.”*

William Ross  
Mercedes-Benz South West

# Mercedes-Benz South West Case Study:

## One Platform, Total Visibility

See how Mercedes-Benz South West upgraded from legacy cameras to a fully managed cloud CCTV platform, improving visibility, security, and efficiency across 4 sites.

### The challenge

- Legacy analogue cameras with no night vision.
- Fragmented monitoring across 4 dealerships.
- Weak access controls and slow incident investigations.

### The solution

- New infra-red cameras sourced and installed.
- SEiNG deployed across all sites.
- Single dashboard for all locations.
- AI analytics & smart search for fast incident tracking.
- Fully managed onboarding, training, 24/7 monitoring integration.

South West

### The impact

- Investigate faster: locate footage in minutes, not hours.
- Simplify management: all sites in one platform.
- Never miss a moment: video walls for real-time forecourt monitoring.
- Peace of mind: automatic updates, secure cloud storage, enhanced safety.
